### **Reasons for Allowance**

Applicants' response to the last Office Action, filed on April 25, 2005 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 8-9; and 17 are allowable over the prior art of record. Claims 2-7, 10-16, and 18, 20, and 22 depend from claims 1, 9 and 17 respectively, therefore, are allowed.

Independent claims 1, 8-9 and 17 recite the limitations of : a wavelet decoding method and device utilizing steps of extracting partial wavelet coefficients necessary for decoding a specified area and using three partial coefficients of the level and the completely transformed results of the previous level when a level other than a first level are transformed. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest references of US 6587588 to Bottou et al., US 6473528 to Li et al., and US 5933535 to Lee et al. (combination) disclose a method of specifying a area and IWT the specified area using partial coefficients. However, he does not teach the limitations of cited above.

Art Unit: 2623

In view of the amended claims and the Applicant's arguments, the rejections to claims 1-18, 20 and 22 are expressly withdrawn.
